

Claim 673MC457 Baron v Argos

Dear Sir,

Yesterday, I received notice of allocation to the small claims track for the above case in Croydon County Court.

First, can I please ask again that this be set down for an afternoon hearing? I have mobility problems and have to take medication in the morning before I can venture out.

I have attached all the documents for District Judge Keating and scans of the actual memory sticks.

Re paragraph 4 of your letter, I am afraid settling this case by negotiation is impossible. I spoke to the independent mediator sometime ago and frankly the response of Argos was to add insult to injury. I was extremely reasonable in this matter and was in effect told to go pound sand.

I am 100% certain I will prove my case and the Court will agree that the behaviour of both the Argos Complaints Department and its Legal Department have been outrageous.

I am copying this e-mail to the Defence.

Yours Sincerely,

A Baron
